Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 17, 18 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 17, 18 each recite the phrase *"providing...data... for each of said at least one media capability for each of said plurality of communication devices."* This phrase is unclear and confusing as it is not known if the phrase "...for each of said plurality of communication devices" refers to the 'providing data' portion or the 'for each of said at least one media capability' portion.

Grammatical errors makes the claim unclear and therefore indefinite.

Appropriate clarification and/or correction are required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-3, 5-11, and 17-18 rejected under 35 U.S.C. 102(e) as being anticipated by Yoakum et al., Patent #6,658,095.

Regarding claims 1 and 17-18, Yoakum teaches a system, method, and article of manufacture comprising:

a processor, a communication port coupled to said processor and adapted to communicate with at least one device, and a storage device coupled to said processor and storing instructions adapted to be executed by said processor to: determine a plurality of communication devices associated with an identity, determine at least one media capability associated with each of said plurality of communication devices(Fig.1), determine availability information for each of said at least one media capability; and provide, via a user interface, an aggregated view of data indicative of said availability information for each of said at least one media capability for each of said plurality of communication devices (col.2 lines 31-47 and col.7 line 10-col.8 line 57).

Regarding claim 2, Yoakum teaches the method of claim 1, further comprising the step of: receiving a request for information regarding media channel availability for said identity (col.2 lines 31-47 and col.7 line 10-col.8 line 57).

Regarding claim 3, Yoakum teaches the method of claim 1, further comprising the step of: receiving a request for information regarding media channel availability for said device (col.2 lines 31-47 and col.7 line 10-col.8 line 57).

Art Unit: 2645

Regarding claim 5, Yoakum teaches the method of claim 4, wherein said interface provides information identifying said device (col.2 lines 31-47 and col.7 line 10-col.8 line 57).

Regarding claim 6, Yoakum teaches the method of claim 4, wherein said interface provides information identifying said identity (col.2 lines 31-47 and col.7 line 10-col.8 line 57).

Regarding claim 7, Yoakum teaches the method of claim 4, wherein said interface provides information identifying an identity context associated with said identity (col.2 lines 31-47 and col.7 line 10-col.8 line 57).

Regarding claim 8, Yoakum teaches the method of claim 1, further comprising the step of: determining a device context for said device (col.2 lines 31-47 and col.7 line 10-col.8 line 57).

Regarding claim 9, Yoakum teaches the method of claim 1, further comprising the step of: determining a rule governing availability of said media channel (col.2 lines 31-47 and col.7 line 10-col.8 line 57).

Regarding claim 10, Yoakum teaches the method of claim 1, further comprising the step of: determining a rule that governs how availability of said media channel is to be determined(col.2 lines 31-47 and col.7 line 10-col.8 line 57).

Regarding claim 11, Yoakum teaches the method of claim 1, further comprising the step of: determining an identity context for said identity (col.2 lines 31-47 and col.7 line 10-col.8 line 57).

Response to Arguments

Art Unit: 2645

3. Applicant's arguments with respect to claims **1-3, 5-11, and 17-18** have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph T. Phan whose telephone number is (571) 272-7544. The examiner can normally be reached on Mon-Fri 9am-6pm.

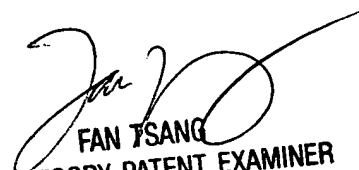

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Fan Tsang can be reached on (571) 272-7547. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
